EPILEPSY & EEG CONFERENCE

PROGRAM

Friday, 13th May

13.00-13.15 Welcome note (Prof. Dr. Bălașa Rodica, Conf. Dr. Szatmári Szabolcs)

Topic 1: General introduction of epilepsy, a short update on the important news, latest diagnostic criteria and brief clinical classification

13:15-13:35 Dr. Fabó Dániel: Seizure classification

13:35-13:55 Dr. Pető Nóra: Seizure semiology

13:55-14:15 Dr. Oane Irina: Diagnostic criteria

14:15-14:35 Dr. Vladacenco Oana Aurelia, Dr. Teleanu Raluca Ioana: First epileptic seizure: evaluation protocol and therapeutic approach

14:45-15:30 Lunch

Topic 2: Basic mechanisms of epileptogenesis and of currently available anticonvulsant drugs

15:30-16:00 Dr. Dăneasa Andrei: Epileptogenesis and the mechanisms of anticonvulsant drugs

16:00-16:20 Dr. Kelemen Anna: Rare epilepsy syndromes, with neuroimmunology and genetics focus

16:20-16:40 Dr. Borbély Csaba: AED - Neuropsychology

Topic 3: Electroencephalography introduction and basics

16:40-17:10 Dr. Mîndruța Ioana - General introduction of EEG - when, why?

17:10-17:40 Dr. Fabó Dániel: EEG Basics

17:40-18:00 Coffee break

18:00-18:20 Dr. Roza Eugenia, Dr. Teleanu Raluca Ioana: Practical aspects in video-EEG and long term EEG monitoring: normal versus pathological

18:20-18:50 Dr. Ujvári Ákos: Status epilepticus - EEG aspects and treatment

20:00 Dinner

Saturday, 14th May

Topic 4: Invasive EEG monitoring and epilepsy surgery

09:00-09:20 Dr. Mîndruța Ioana: Patient selection for invasive monitoring

09:20-09:40 Dr. Hajnal Boglárka: Epilepsy surgery, subdural vs SEEG

09:40-10:00 Dr. Sákovics Anna: Neuromodulation: DBS, VNS and non-invasive techniques

10:00-10:20 Dr. Borbély Csaba: Neuropsychology during surgical evaluation

10:20-10:40 Dr. Mîndruța Ioana: Epilepsy National Program (National Program for drug resistant epilepsy - patient selection guide)

10:40-11:10 Coffee break

Topic 5: Special aspects of seizures

11:10-11:30 Dr. Teleanu Raluca Ioana: Seizure imitators and long-term EEG monitoring

11:30-11:50 Dr. Roza Eugenia: NORSE (New Onset Refractory Status Epilepticus) and FIRES (Febrile Infection-Related Epilepsy Syndrome)

11:50-12:10 Dr. Vladacenco Oana Aurelia: Electrical status epilepticus in sleep (ESES) - current perspectives

12:10-12:30 Dr. Teleanu Raluca Ioana: Pediatric PNES (psychogenic non epileptic seizures) – diagnosis pitfalls

Topic 6: Telemedicine in epilepsy

12:30-12:50 Dr. Oane Irina: Online tools for epilepsy management

12:50-13:10 Dr. Roza Eugenia, Dr. Vladacenco Oana Aurelia, Dr. Teleanu Raluca Ioana: Telemedicine in epilepsy - our experience and live presentation

13:10-13:30 Closing remarks (Dr. Mîndruța Ioana, Dr. Fabó Dániel)
